

Qualified suppliers for DIB ball valves

Rev.: 27.03.2020

Qualification requirements are detailed in TR2000 VSK V850.

Notes:

- 1) Extension of qualified scope may be carried out on an actual order.
CR for relevant frame agreement shall be notified when ordering these valves.
- 2) For some valves, especially of compact flanged type, the face-to-face dimensions are exceeding the ASME B16.10 dimensions.

Legend:

Qualified range for PEEK and metal seated valves
Qualified range for PEEK seated valves

Perar

Note that qualification as per Equinor qualification requirements is required for the first orders of DIB valves to Perar, since qualified range is based on qualification done for other end users with somewhat different requirements.
