COOKIE POLICY

Information on the use of cookies *pursuant to Art. 122 of Italian Legislative Decree 196/2003 and the Italian DPA Guidelines*

1. WHAT ARE COOKIES

Cookies are small text files that websites send to the user's device (computer, tablet, smartphone), where they are stored and then retransmitted to the same websites on the next visit.

Cookies allow websites to remember user actions and preferences (such as login, language, font size, and other display settings) so that they do not need to be re-entered each time the user returns to the site or navigates from one page to another.

Cookies can be "session" cookies (deleted when the browser is closed) or "persistent" cookies (remain on the device for a defined period or until manually deleted).

2. TYPES OF COOKIES

Cookies are divided into different categories:

2.1 Technical cookies (necessary)

These are cookies essential for the proper functioning of the website. They enable navigation and the use of basic features (e.g., access to restricted areas, storage of technical preferences). Without these cookies, the site may not function properly. **They do not require user consent.**

2.2 Analytics cookies

These are cookies used to collect information about how the site is used (e.g., pages visited, time spent, navigation paths). If anonymized and used only to produce aggregate statistics, they are equivalent to technical cookies and **do not require consent.**

2.3 Profiling cookies

These are cookies used to track user navigation and create profiles of their tastes, habits, and choices in order to send targeted advertising messages. **They require the user's prior consent.**
